

FAMILY STATEMENT:

My father was a wonderful Christian man who was loved by all who came in contact with him. It is the wish of our family to celebrate his life.

In the short time my father was at Glenwood Gardens, he became very close to the staff caring for him, and this was an emotional time for all involved. The staff was wonderful and the doctor was wonderful.

Unfortunately, our time of grieving has been disturbed by the media, and we feel our confidentiality has been compromised.

Our wishes were communicated to the doctor and these wishes were followed.

Our family wants to celebrate our father's life. We wish to focus on our family at this time, and this will be our final comment on this personal matter.
